CONVERSATION WITH CONGRESSMAN MAHON:

Mr. Mahon called and asked for the Director, who was at the Pentagon. He said that maybe he didn't need to talk with the DCI anyway - that he had had a call from a Mr. [redacted] sometime ago about looking at the U-2 type of pictures. He said he would like to see these now - maybe late this afternoon if that would be possible. He didn't want a briefing by the DCI or DDCI as he just didn't have the time now.

He said he did not want a lot of conversation that would take a lot of time but just wanted to see a movie, if we have something like that.

He said to tell the Director he said 'hello' and that after the elections he wanted to see the Director.
